

## EMS BUILDING DEDICATED TO DELORES POULTER WILSON

Several people gathered around and in the new Emergency Medical Services Pavilion on a chilly November afternoon to dedicate the structure to Delores Poulter Wilson.

Dr. Poulter Wilson, a professor at Iowa Wesleyan University, is no stranger to the community or to Old Threshers. She remembers when the Reunion was in its infancy and the thought of on-site medical services was no where on the horizon.

Eventually there were tents erected to temporarily house EMS staff from the local health center. Just a few years ago, the Paul Anderson Welcome Center was built on the north side of the grounds to include a first aid station offering a climate controlled room to treat visitors. This access to air conditioning saw the number of visitors being transferred by ambulance for heat related illnesses decline drastically.

EMS staff stationed on the south side of the grounds still had to operate out of a tent. A temporary building was used at the 2016 Reunion. It was such a success that plans were made to build a permanent structure. Thanks to seed money from the Henry County Health Center Foundation, the fundraising efforts of Alan Husinga and other members of the Foundation, The Delores Poulter Wilson Emergency Medical Services Building became a reality just in time for the 2017 Reunion. While Dr. Poulter Wilson is a major contributor to the campaign, 100 individuals and entities in the community also contributed.

Greetings from Old Threshers,

As, I look back on the 2017 year, I am amazed at the list of what was accomplished! I need to say “THANK YOU”, to the Board of Directors, my staff and the many volunteers that made 2017 a success on so many levels. The list of projects and events that happened this past year is too large to list them all. But each one of those items on the list had a huge impact on the Association as a whole. As I look ahead to 2018, I see that pattern of growth and change continuing all across the Association’s facilities and events. Plus, I have already put in a good word with Mother Nature for another great weather year for the 2018 Old Threshers Reunion.

This is a special time of the year with the Holiday Season fast approaching. I wish everyone a Merry Christmas and A Happy New Year!

*This Christmas  
Mend a quarrel.  
Seek out a forgotten friend.  
Write a love letter.

Apologize if you were wrong.  
Think first of someone else.  
Be kind and gentle.  
Laugh a little. Laugh a little more.  
Express your gratitude. Gladden the  
Heart of a child. Take pleasure  
In the beauty and wonder of the earth.

Speak it all at once again.

# NEW BUILDINGS TO BE ERECTED IN 2018

The new year will see new buildings around the Old Threshers grounds. The biggest of the projects is a new Bus Barn and Storage building to be built along Threshers Road east of the Hazel Grace Pierson Carousel Pavilion. This new building will house Old Thresher's fleet of buses as well as act as storage for many seasonal items. There may also be an area of the building that can be rented out for events. During the Old Threshers Reunion, the building will be the new home of the Swap "Tent." This building is being paid for in part by a major donation from the Old Threshers Foundation

Another building to be added will be a new Campground Registration building. The climate-controlled building will be built inside Gate 13 and across the road from the current building. This new location will allow easier access to cars and campers during the camper registration process during the Old Threshers Reunions. Another advantage to volunteers is during Festival of Lights. Those working, in what sometimes are frigid temperatures, will have easy access to the heated building while being close to cars entering the light park.

## CONSTRUCTION HAS BEGUN ON DOLL & CLOTHING MUSEUM

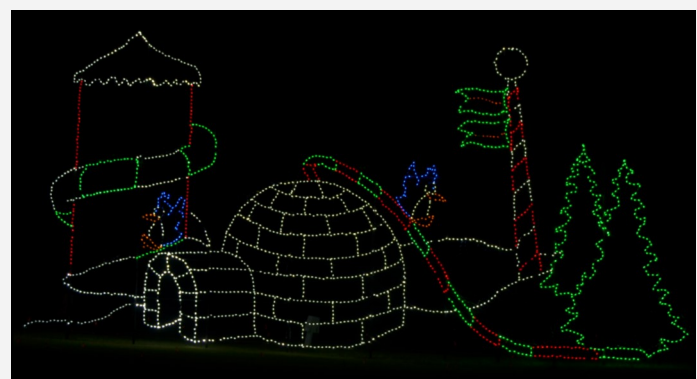

Museum A will be home to the new doll and clothing museum. The concrete floor has been poured and framing of the outside walls is complete. With seed money from the Old Threshers Foundation, grant money from Enhance Henry County Community Foundation and private donations, this newest addition to Old Threshers will allow expansion of the Bussey Doll Collection as well as a place to display the Association's clothing collection.

When completed, the new space will offer a place for groups to gather to learn about the dolls and clothing as well as a hands-on area for young visitors.

## FESTIVAL OF LIGHTS FEATURES MORE THAN 100 DISPLAYS

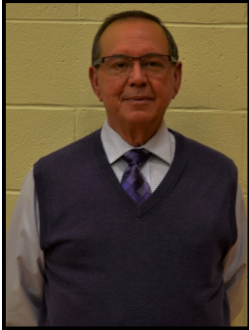

The 2017 Mt. Pleasant Festival of Lights features 118 light displays. When the attraction was in its first year, there were 65 displays. A cold and wet October made setting up the lights a challenge. As opening night came in mid-November, temperatures were above normal. While the warm temperatures made selling tickets enjoyable, but they kept the snow away. That didn't seem to bother people traveling from across Iowa to see the display. Just in time for Christmas, Mother Nature blanketed southeast Iowa with snow adding to the whimsy of the lights. Thank you too all of the sponsors and volunteers who make the Festival of Lights possible. There is still time to see the lights. Hours are 5:30-9pm nightly thru Dec. 31st.

## OLD THRESHERS FOUNDATION ANNUAL REPORT

Fiscal Year 11/01/16 – 10/31/17

Alan Huisinga, Foundation  
Executive Director

It is my pleasure, as Executive Director, to provide a brief overview of the Old Threshers Foundation. 2017 was a milestone for the Foundation – it was our 30<sup>th</sup> year of operation. The Foundation was organized in February 1986 with \$40,000. And now, thirty years later, the Foundation's assets have grown to **\$2,165,611.42**.

The purpose of the Foundation is to provide financial assistance to Midwest Old Threshers. During these past 30 years, the Foundation has given \$1,106,733.85 in earnings (investment earnings plus farm rent) to Old Threshers to fund various projects, some of which have recently included:

- Trolley track work and trolley car restoration
- Restroom upgrades
- New storage building
- Campground and grounds LED lighting improvements
- Terrace drainage in the campground
- New museum display for cars, trucks and fire department
- Seed money for a new museum to display antique dolls and clothing

At the Foundation's annual board meeting in November, the following board members were re-elected to three-year terms: Mike Barton, Jason Goody, Melinda Huisinga, John Jensen and Todd Mabeus. The following officers were re-elected: Todd Mabeus, president; John Jensen, vice president; Melinda Huisinga, secretary; and Jason Goody, treasurer.

The Board also approved their annual funding in the amount of \$111,571.16 to Midwest Old Threshers in support of their 2018 projects; this is the highest amount in Foundation history. These funds will be used to continue the LED lighting improvements throughout the grounds and to build a new multi-purpose 40'x160' building to be used as a trading post during the reunion and a storage building the remainder of the year.

As you approach year-end and consider your charitable contributions for this tax year, please keep our Old Threshers Foundation in mind. Remember your gifts to our Foundation qualify as charitable contributions to a non-profit 501(c)(3) organization for Federal income, estate and gift tax purposes. In addition to monetary contributions to either the pass through account or the endowment, other ways to support the Foundation include: a will bequest, a designation as a life insurance beneficiary, IRA, and/or a gift of appreciated stock. If you have any questions or need additional information, please feel free to contact me at the Midwest Old Threshers office 319-385-8937 or e-mail [otfoundation@oldthreshers.org](mailto:otfoundation@oldthreshers.org).

On behalf of the Foundation Board, we thank all of you for your continued support which enables us to fulfill our mission of providing financial support to Midwest Old Threshers. May you and your family have a very Merry Christmas and a healthy, happy new year!

Thank you,

Alan D. Huisinga, Executive Director

Bob was born on May 24, 1930 in Ollie, IA to Blanche (Brock) & Guy Stull. His family moved to Mt. Pleasant, where Bob met his beloved, Joyce Elaine Rich. Happily married for 53 years they lovingly raised one daughter, Jill.

Throughout his life Bob held a variety of jobs including crop duster pilot, lineman and electrician, eventually owning his own small business, Stull Electric. He enjoyed his business and worked well into his 70's when he finally retired to his hobbies of golf, woodcarving, gardening and helping Joyce around the house. He loved spending time with his granddaughters, Allison and Anna, travelling to visit them in Lincoln, going on vacations with Jill, her husband Pat, and the girls, and assisting Pat with projects.

achieved the rank of Lieutenant Colonel and earned the Meritorious Service Medal. He officially retired from the US Army in 1990 after 40 years of service. During his military career he served in multiple roles but his proudest achievements were his training and assignments as fixed wing pilot, helicopter pilot and flight instructor. A superior officer once noted that "He is well liked and respected by superiors and subordinates alike. His moral character is sound. His loyalty is unquestionable.
